INSTRUCTION

5

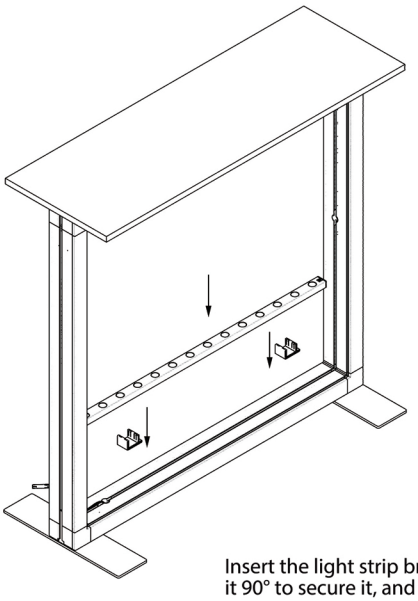

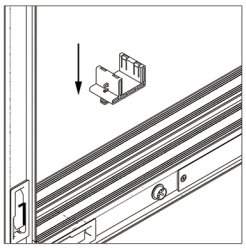

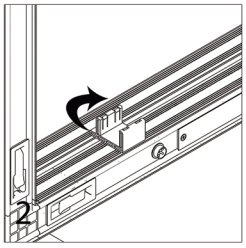

Insert the profile and the side tabletop using the twist-lock fasteners, then rotate 90° to secure the side tabletop.

6

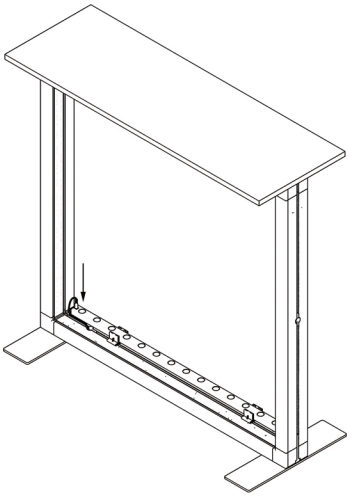

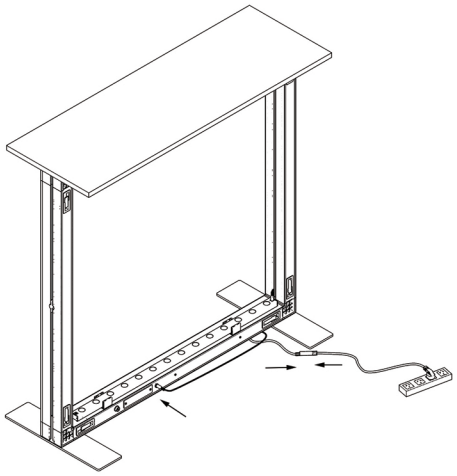

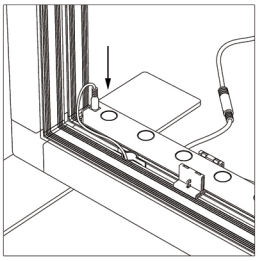

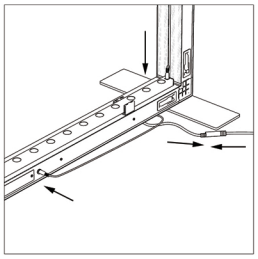

Insert the light strip bracket into the profile, rotate it 90° to secure it, and then install the light strip.

7

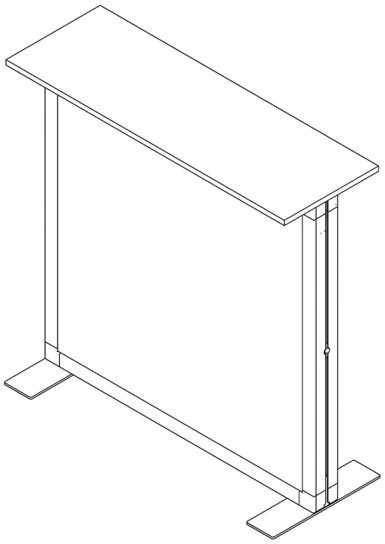

Connect one end of the power cord to the light strip, thread the other end through the profile to connect it to the power profile, and finally connect it to the power adapter.
